

The RECOVER Project is a community-driven program that aims to enhance the lives of people in recovery from alcohol and/or drug addiction.

## Why choose us?

We provide peer based recovery support and access to community resources. Our members are people in recovery who empower each other by sharing their journeys. This is based on the principle that great competence and wisdom reside in those with lived experience. We call this the peer to peer participatory process.

## RECOVERY IS...

*A process of change through which individuals improve their health & wellness, live a self-directed life, & strive to reach their full potential.*
