

Keeping infants and children safe must be our top priority.

Brought to you by Northwestern District Attorney's Child Fatality Review Team

SLEEP SAFE

Protect sleeping babies

- Always place babies on their backs to sleep
- Use a safety approved crib and firm mattress
- Keep bedding, pillows, padded bumpers, soft toys, blankets and stuffed animals out of crib
- Keep homes smoke-free
- Have babies sleep close to you, but in a separate place. Never in the same bed
