

# Keeping infants and children safe must be our top priority.

*Brought to you by Northwestern District Attorney's Child Fatality Review Team*

## WINDOW SAFE

*Be window wise*

- Screens do not protect children from falling; always supervise children
- Open windows from top down when possible
- Lock unopened windows
- Use stops to prevent windows opening more than 4 inches or install window guards
- Move toys away from window
- Keep furniture and other climbing lures away from windows
- Don't let children lean on windows
- Remind babysitters, relatives and other caregivers about window safety
